

Compression garment Marbella 1094

Indication

- After breast conservation therapy (BCT/partial surgery)
- After plastic breast surgery

Application

- Prevents pressure points and tissue irritation
- Supports the healing process with controlled compression in the scar area, relieves the lymph drainage pathways
- Cups made of elasticated cotton fabric for improved wearer comfort
- Can be worn with Post-OP belt for additional support: Sevilla 0055

Infinitely adjustable hook and loop fastener on the strap

High cut at the back for 360° compression

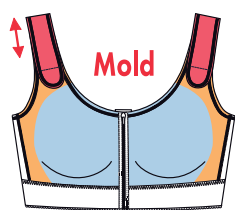

Padded zip

Double-layered, moulded cups made of stretch cotton fabric

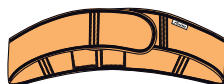

Controlled compression from the underbust area to the straps

Secure fit due to wide, elastic cotton waistband, soft and gentle on the skin

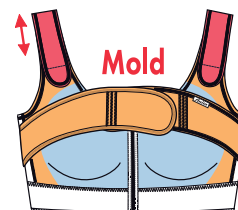

Practical zip with hook and eye closure underneath for easy closing
